

Reading list

- On the origin of consciousness - David Chalmers
- Information theory, inference and learning algorithms - David Mackay
- Quantum computation and quantum information - Michael Nielsen
- Reinforcement learning: an introduction - Richard Sutton
- Spacetime and geometry - Sean Carroll
- Lectures on physics - David Tong
- Superintelligence - Nik Bostrom
- Henri Matisse - Jazz
- Science and ultimate reality - Barrow, Davies and Harper
- Simulacra and simulation - Jean Baudrillard
- Deep Learning - Ian Goodfellow
- Vitamin P3 - Phaidon
- Reinforcement Learning: An Introduction - Richard S. Sutton, Andrew G. Barto, Francis Bach
- Machine Learning: A Probabilistic Perspective - Kevin Murphy, Francis Bach
- Information Theory, Inference and Learning Algorithms - David J. Mackay
- Quantum Cosmology - Martin Bojowald
