

DR MARINA BATTAGLIA

Address: Fachhochschule Nordwestschweiz
Institute of 4D Technologies
Steinackerstr. 5
CH-5210 Windisch

Work Tel.: +41 (0)56 462 4878
Mob. Tel.: +41 (0)78 806 8253
E-mail: marina.battaglia@fhnw.ch
Nationality: Swiss

RESEARCH INTERESTS

My research interests are particle acceleration and transport in solar flares, using observations in X-ray and radio wavelengths and putting them into context with theoretical models. Current projects aim at understanding particle transport in the chromosphere using numerical simulations and X-ray imaging observations made by the RHESSI satellite. I am further involved in collaborative efforts to better understand and improve current imaging techniques for the RHESSI satellite in particular visibility based approaches.

EMPLOYMENT

- 01/2012 – present** **Post-doctoral researcher**
Fachhochschule Nordwestschweiz, Switzerland, Institute of 4D Technologies
- 05/2009 – 11/2011** **Leverhulme Research Fellow**
University of Glasgow, UK, School of Physics and Astronomy
- 01/2009 – 03/2009** **Post-doctoral Research Assistant**
ETH Zurich, Switzerland, Department of Physics, Institute for Astronomy
- 02/2008 – 04/2008** **Visiting Graduate Research Assistant**
University of Glasgow, UK, Department of Physics and Astronomy

EDUCATION

- 12/2004 – 12/2008** **Ph.D.**
ETH Zurich, Switzerland
Thesis title: *Particle kinematics in solar flares: observations and theory*
- 10/1999 – 08/2004** **dipl. phys. ETH**
ETH Zurich, Switzerland
Studies of physics with focus on astrophysics and particle physics

AWARDS & FELLOWSHIPS

- Honorary Research Fellow, School of Physics & Astronomy, University of Glasgow, UK (1/12/2011-31/12/2012)
- RAS grant for a summer student project (2011)
- Participant at the “Building a successful international research career” workshop by the British Council, Amsterdam (2011)
- Leverhulme Research Fellowship (2009)
- SNSF Fellowship for Prospective Researchers, Swiss National Science Foundation (2009, declined due to clash with Leverhulme)
- Outstanding student paper award, Space Physics and Aeronomy Section of the American Geophysical Union (2008)
- Award for scientific excellency, Institute for Astronomy, ETH Zurich (2008)
- Student Travel Grant for participation at conferences, Swiss Society for Astrophysics & Astronomy (2005 & 2006)
- Undergraduate study grant, Kuffner Foundation (2002-2004)

RESEARCH RELATED EXPERIENCE

- Participant at “Standing up for Science Media Workshop”, University of Glasgow, 18. November 2011
- Member of the LOC for the 11th RHESSI workshop, Glasgow 2011
- Helper at the National Astronomy Meeting (NAM), Glasgow (2009)
- Group leader at the 8th RHESSI workshop, Potsdam (2008)
- Webmaster and Assistant System Administrator, Institute for Astronomy, ETH Zurich (2006 – 2009)
- Referee for the Astrophysical Journal, Astronomy & Astrophysics, and Solar Physics

TEACHING EXPERIENCE

- Lecturer for “Exploring the cosmos 2y” (University of Glasgow, 2011)
- Astronomy 2 supervisor (University of Glasgow, 2010)
- Student BSc. project supervision. First supervisor of a student working on RHESSI data analysis, second supervisor of a student working on the physics of climbing falls (final report graded A4) (University of Glasgow, 2009 – 2010)
- Final Year Undergraduate Astronomy lab demonstration. Supervised an observational project on solar limb darkening and a computational project on stellar structure (University of Glasgow, 2010)
- Teaching Assistant for the lecture course “Physics II”. Tutorials and exam preparation assistance for groups of up to 20 students (ETH Zurich, 2005 – 2009)
- Demonstrator for Beginner’s Astronomy lab (ETH Zurich, 2005 – 2009)

COMMUNITY OUTREACH

- Ambassador for the Science, Technology, Engineering and Mathematics Network (STEMNET) (since 2009). Activities: Show with the University of Glasgow mobile planetarium at Lochwinnoch Primary, Tours of the University of Glasgow observatory for Glasgow Scouts and a group of RAF pensioners, “Speed-networking” careers event at Springburn Academy
- Talks at meetings of amateur astronomers. Highlights include the 7th International Week of Astronomy (Arosa, 2006) and the 6th Teleskop treffen Falera (2007)
- Organized a study week for high-school students, ETH Zurich 2008
- Support at science events: “Night of Physics” (ETH Zurich 2005), “World of science” (Zurich 2005), “Physics for kids and teens” (ETH Zurich 2005)
- Article on the Sun in the professional magazine “SCHULEkonkret” for primary school teachers, *Die Sonne - unser Stern*, F. Joos, P.C. Grigis, M. Battaglia (6/2005)

SKILLS

- Expert knowledge of RHESSI data analysis and visibility imaging techniques
- IDL/Solar Soft, L^AT_EX document preparation language
- Basic knowledge in Unix system administration
- Languages: German (native), English (fluent), Italian (intermediate), French (intermediate)

PROFESSIONAL AFFILIATIONS

- Fellow: Royal Astronomical Society (F.R.A.S.)
- Member: Swiss Society for Astronomy and Astrophysics

INVITED TALKS

-
- 2011** • High accuracy height and size measurements of X-ray solar flare sources as diagnostic of particle transport mechanisms and chromospheric density, University of St. Andrews, UK (9. November)
- 2010** • A new method to image X-ray albedo and study X-ray directivity, Goddard Space Flight Center, MD, US (13. August)
- 2009** • Chromospheric diagnostics using RHESSI flare observations, University of St. Andrews, UK (16. December)
- 2008** • RHESSI observations beyond the standard flare model, UC Berkeley, US (4. December)
• New evidence for return currents in solar flare loops, AGU, Florida, US (30. May)
- 2006** • RHESSI observations of solar flares with three hard X-ray sources, UC Berkeley, US (15. February)

PRESENTATIONS AT CONFERENCES

- 2011** • X-ray observations and theory of electron transport in the chromosphere, 4th Glasgow-Meudon alliance workshop, Glasgow (6. October)
• Diagnostics of electron transport in the solar chromosphere using hard X-ray solar flare observations, 13th European Solar Physics Meeting, Rhodes, Greece (15. September)
• Heights of X-ray, EUV and white light sources in a limb flare observed by RHESSI and SDO (Poster), 13th European Solar Physics Meeting, Rhodes, Greece (15. September)
• Hard X-ray solar flare observations as diagnostics of electron transport in the chromosphere, National Astronomy Meeting, Llandudno, UK (19. April)
• Implications of hard X-ray footpoint sizes and positions on the thick target model, 11th RHESSI meeting, Glasgow, UK (7. April)
- 2010** • Exploring the chromosphere using RHESSI data, Glasgow-Meudon alliance workshop, Glasgow (6. October)
• Science applications of visibility forward fitting, 10th RHESSI meeting, Annapolis, US (4. August)
• Footpoint sizes in theory and practice, 10th RHESSI meeting, Annapolis, US (4. August)
• Imaging observations of X-ray albedo in a compact disc flare (Poster), COSPAR, Bremen, Germany (21. July)
• Footpoint sizes and positions of limb flares observed with RHESSI (Poster), COSPAR, Bremen, Germany (21. July)
• Diagnostics of X-ray directivity and electron beaming in solar flares using RHESSI visibilities, CESRA meeting, La Roche-en-Ardenne, Belgium (15. July)
• Imaging observations of X-ray albedo in a compact disc flare (Poster), RAS National Astronomy Meeting, Glasgow, UK (14. April)
- 2009** • Chromospheric diagnostics using RHESSI visibilities, 9th RHESSI workshop, Genoa, Italy (2. September)
- 2008** • Pre-flares observed by RHESSI, Solar activity during the onset of solar cycle 24, Napa Valley, US (9. December)
• Adding a new piece to the puzzle of particle acceleration and propagation in solar flares, General Assembly of the Swiss Society for Astronomy and Astrophysics, Zurich, Switzerland (26. September)
• The pre-flare phase: key to understanding energy and mass transport in flare loops, ESPM-12, Freiburg i.B., Germany (9. September)
- 2007** • Particle acceleration and propagation in solar flares, HINODE Data Analysis Workshop, Orsay, France (14. November)
• Can a simple thin-thick target model explain the observed connections between coronal footpoint sources?, 7th RHESSI workshop, Santa Cruz CA, US (27. June)

- 2006** • *Relations between concurrent hard X-ray sources in solar flares*, AAS-SPD Meeting Durham NH, US (28. June)
• *Coronal and footpoint hard X-ray sources in solar flares*, 6th RHESSI workshop, Paris, France (5. April)
- 2005** • *Size dependence of solar X-ray flare properties*, 5th RHESSI workshop, Ascona, Switzerland (9. June)
• *Solar Flare Parameters vs. Flare Size (Poster)*, EGU General Assembly, Vienna, Austria (26. April)

SEMINAR TALKS

- 2011** • *Wait a moment - exploring the chromosphere using RHESSI data*, University of Glasgow, UK (17. November)
- 2010** • *Wait a moment - exploring the chromosphere using RHESSI data*, University of Glasgow, UK (22. April)
- 2008** • *The puzzle of particle acceleration and propagation in Solar Flares*, ETH Zurich, Switzerland (7. October)
• *Three's company - new insight into particle acceleration and transport in solar flares*, University of Glasgow, UK (April)
- 2007** • *Can a simple thin-thick target model explain the observed connections between coronal and footpoint sources?*, ISSI Bern, Switzerland (8. May)
• *Can a unified thin-thick target model explain the observed connections between coronal and footpoint sources in solar flares?*, ETH Zurich, Switzerland (23. January)
- 2005** • *Three is company - RHESSI observations of solar flares with three hard X-ray sources*, ETH Zurich, Switzerland (29. November)

OUTREACH TALKS

- 2011** • *The dark side of the Sun, Stars over the Botanics*, Glasgow (15. February)
• *Solar research in the space age*, East-Renfrewshire Astronomical Society, Paisley, Scotland (27. January)
• *Solar research in the space age*, Dundee Astronomical Society, Dundee, Scotland (14. January)
- 2010** • *Solare Flares: Ein explosives Gebiet der modernen Sonnenphysik*, 50th Anniversary of the Kuffner Foundation, Zurich, Switzerland (18. June)
- 2009** • *Sonnenforschung im Raumfahrtzeitalter*, Urania Amateur Astronomer's society, Zurich, Switzerland (27. March)
- 2007** • *Ein Stern entsteht*, 6th yearly meet ("Teleskopentreffen") of Amateur Astronomers, Falera, Switzerland (8. September)
• *Die aktive Sonne*, Monthly get-together of the Astronomische Gesellschaft Luzern, Switzerland (3. September)
• *Aus dem Leben eines Sterns*, General Assembly of the Swiss Amateur Astronomer's society, Falera, Switzerland (2. June)
- 2006** • *Die Sonne in ungewohntem Licht*, 5th yearly meet ("Teleskopentreffen") of Amateur Astronomers, Falera, Switzerland (23. September)
• *Die aktive Sonne*, 7th International Astronomy Week, Arosa, Switzerland (23. July)
